ZOMB-AID®
BRAND SELF-ADHESIVE BANDAGES
Zindicator™ Strip
Lets You Know Early

You trust Mengele Medical's wide range of wound-care products to keep your family as safe as possible in times of infection. With **ZOMB-AID® Brand Self-Adhesive Bandages**, you can make the best of a difficult situation. The pads with medicated gel help manage discomfort and secondary infections. The Zindicator™ Strip lets you know early if the zombie infection has taken hold, so you can make your preparations.

The Patented Zindicator™ Strip

The Zindicator™ Strip is easy to use! Simply make sure the inner sensor pad is in contact with the open wound. If it's blue, you're uninfected. If it's red, you have as long as 10 hours to prepare.

GLUE FLAP TO REVERSE OF OPPOSITE SIDE

covers both sides of bite with one bandage
